

WTM holds first business conference in new office placed in African country Ghana on 20th March 2015

We organized business conference in Accra city, Ghana on 20th March 2015. The aim of this conference was to provide new and better business opportunities to Ghana industry. WTM and its partner did conference on WTM new office opening and WTM products like SalesGrow CRM, HRM etc. Many businessmen attended it and had long discussion over the use of a software product in a business industry. We discussed how a software product can increase our business revenue and grow businesses. Customer relationship management (CRM) can help any business to manage their customer in better ways. It can close deals in less time, save precious employee time and increase overall sales revenue. Traditional paper work is too tedious and complex to manage office work. Technology can be a solution to overcome these business problems. SalesGrow CRM is an on-demand fully customizable sales and marketing software with inventory management can manage your complete business in an effective way. SalesGrow CRM is a reliable software, SAAS cloud or local server can be fit into any industry type and can fully fill the whole CRM requirement.
